

Bio -energy Enterprises Promotion Programme

State Govt. has issued Govt. order dated 21.02.2018 for effective implementation of bio mass based products including solid fuels (Bio-coal - pellets and briquettes), liquid fuels (Bio-diesel, bio ethanol and methanol), gaseous fuels (bio gas/bio-CNG) and 'drop-in -fuel' etc. for implementation in entrepreneur mode.

Bio-ethanol blending in gasoline has been started by oil marketing companies. bio-ethanol production programme is taking shape of a larger market, considering the technical consent of blending higher percentage bio ethanol in petrol. Apart from this, there is an alternative fuel based on 'drop-in-fuel' updated technology which can be blended in both petrol/diesel as per the requirement. It can also be used directly in place of diesel/petrol. Methanol can also be used as a low cost clean transport fuel.

Implementation Strategy

Implementation of the Projects are based on entrepreneur Mode.

For this purpose proposals are invited through new paper, related facilities are made available after appraising the proposals on the first come first serve basis.

Classification of Industrial Units

Level-1: Units with investment proposal less than Rs.10.00 Cr. will be treated as general industrial units (level-1).

Level-2: Units with investment proposal more than Rs.10.00 Cr. but less than Rs.100 cr. will be treated as general industrial units(level-2).

Mega Industrial Units: Units with investment proposal more than Rs.100.00 Cr. will be treated as Mega industrial units.

Financial incentives:

capital Subsidy:

General industrial units(level-1): 25% of the Project Cost.

General industrial units(level-2): 20% of the Project Cost.

Mega Industrial Units: 15% of the project cost or maximum Rs.150 Cr.

Stamp duty exemption: 100 % exemption of stamp duty for purchase of land.

S-GST Reimbursement: 100% reimbursement of S GST for 10 years. (With maximum ceiling of fixed capital investment. Input tax credit amount will not be reimbursed.)

Achievements:-

14 projects of 2480 Crore investment have been sanctioned by the state so far.

At Present the Policy/Programe is on hold.
