| 48 | | 8.20 Timeline, Payment Terms , Page no 26 | a. 85% of the ordered value after the supply, installation and commissioning of the system along with the Joint Commissioning &handing over certificate, indicating bill of material and successful commissioning duly countersigned by the designated officer and end user. | 3. Clause 8.20.2.a (Timeline and payment terms of bid document) specifies that that 85% of the ordered value of SITC shall be released upon successful completion and after commissioning duly countersigned by officer and end user. Request / Suggestions: Kindly consider the prevalent practise of 70 % Release of Payment upon delivery of material and balance after successful installation in all government department where SITC is to be done, If this payment practise is also incorporated by UP NEDA, Bidders will have better financial leverage with faster fund rotation which will help in faster execution of work. We need your kind reconsideration on this clause too. | As stipulated in bid document |

| 49 | | 8.20 Timeline, Payment Terms , Page no 26 & 27 | b. The balance 15% payment shall be billed as AMC charges on annual basis kept as security deposit and to be released @ 3% at the end of each year for 5 years, on satisfactory performance and timely submission of quarterly performance report. The Bidder must upload quarterly inspection report on RESIMS within 10 days of expiry of each quarter otherwise AMC of respective quarter elapsed | 4. Clause 8.20.2.b of the Bid Document, which says. Balance 15% kept as performance security to be released 3% at the end of each year for 5 years. However Clause 9.2 Performance security of the bid document separately explains about performance security. Request / Suggestions: The present Bid document talks about two performance security in two different clauses one is 5% of order value other is 15% of order value. Sir, by all standard 15% withheld payment, getting released 3% each year for next 5 year is little harsh in competitive bidding system. Even Store Purchase Manual of state of Uttar Pradesh talk about only one performance security of 5%. Eventually and ultimately, any EPC company who does work with UPNEDA is under control of UPNEDA. In event of any unsatisfactory performance or warranty support. UPNEDA can always not only blacklist the entity and bar from all future contracts. Holding back 15% payment will hit the financial viability of the bidder. It's just a request for your kind reconsideration. Instead of completely waving it off, UPNEDA can still hold 5% of the ordered value and 1% to be released after successful completion of each year. Kindly Consider this. | As stipulated in bid document |
